COMPANY PROFILE

Zhejiang Hounen Optoelectronics Co., Ltd. was established in 2010. It is a new high-tech enterprise specializing in the R&D, production and sales of solar photovoltaic products.

After years of development and accumulation, the company has now set up companies, factories and warehouses in the United States, Cambodia, India such overseas countries. While striving to build internal strength and lay a solid foundation, it will strive to grow into a new energy industry. A company with visibility and brand influence.

In recent years, the pursuit of environmentally friendly building materials and safe homes, Zhejiang HAOPAI Decoration Material Co., Ltd. a subsidiary of the head office, has expanded its industry to the building materials industry. The purpose is to produce 100% zero formaldehyde, ecological and environmentally friendly stone-plastic flooring, so that consumers can build a warm harbour with safe products.

Zhejiang HAOPAI Decoration Material Co., Ltd. is one of the leading manufacturers in SPC flooring, SPC wallboard. Our manufacturing base is located in Jianshan New Area, Haining, ZheJiang. covering 40,000 m². Our assorted product lines have gained renown from buyers all over the world. We are also committed to provide comprehensive installation solutions in furnishing for our customers.

HAOPAI's mission is for people to live in a world which is environmental friendly. No trees have been cut and no hardwood has been used from research to development, from design to production.

SPC

Stone plastic composite

SPC is a particularly new product in the flooring industry. It not only gathers most of the current flooring material, but also provides better performance of being water-proof, rigid, dimensionally stable, and relatively environmentally friendly. Thus it can be safely used in areas with sustained exposure to moisture, such as bathroom, laundry room and kitchen. With good rigidity, SPC provides a quieter, warmer vinyl flooring with a cushioned backing attached, thus eliminating the imperfections from the subfloor which is normally transferred through LVT. SPC is available with locking system.
